**About Avaron Asset Management**

Avaron Asset Management (founded in 2007) is an independent management-owned investment manager with a clear focus on stock-picking (bottom-up) and value investing in Emerging Europe region. We aim to deliver positive risk-adjusted return to our clients over the market cycle. Our portfolios are long-only and invest in listed stocks.

Investment ideas are generated through in-house proprietary research of approximately 250 Emerging Europe companies, backed by regular on the ground visits and meetings. Our stock selection is primarily driven by the upside to internally set target prices on single company level. We invest only in business models that we understand and can model ourselves focusing on companies with leading market positions and strong recurring revenue streams. In addition, we have integrated ESG analysis into our investment process and adhere to the UN Principles for Responsible Investment (UN PRI). Our team of 17 professionals (including 11 in the investment team), based in Estonia and Poland, takes care of around 400 million euros of mainly professional investor assets.

We adhere to the UN Principles for Responsible Investment (PRI) and are supervised by the Estonian Financial Supervision Authority.
