What is this product?

Type	UCITS fund
Objectives	<p>The Fund primarily invests in high yield corporate bonds in Europe. During certain times the Fund might have a significant concentration geographically to the Baltics, Emerging Europe, the Nordics or outside of Europe or sector-wise to financials, real estate or energy. A more detailed geographical and sectorial breakdown of the Fund is available on the Avaron website https://avaron.com/. The Fund mainly invests in unrated or below investment grade high yield corporate bonds. The risk level and return expectation of such instrument is higher than for government bonds or investment grade corporate bonds. Allocation of the Fund's assets between different bond types, industrial sectors and geographical regions is determined by the Management Company based on issuer specific analysis and exercising active portfolio management strategy. The Fund does not follow a benchmark. The Fund does not promote environmental and social characteristics and does not have a sustainable investment as its main objective. -</p> <p>Fund units are issued on every banking day and redeemed with 10 banking days, one month or two months prior notice depending on the redemption amount. Minimum investment into Fund's A unit is 100 EUR. The switching of units with the units of other funds managed by the Management Company is allowed.</p> <p>The unitholder's return on their investment into the Fund is reflected in the increase or decrease of the net asset value of the unit. The Fund's return is determined on daily basis by the increase and decrease in value of the financial instruments in which the Fund invests. Proceeds from the Fund's investments shall be reinvested, no distributions shall be made to the investors. The return on an investment into the Fund or achievement of its investment objective is not guaranteed.</p> <p>More information about Fund's investment policy and restrictions is available in Fund's prospectus.</p>
Intended retail investor	<p>Fund is intended for an investor</p> <ul style="list-style-type: none"> • who plans to hold the investment for at least 2 years; • who understands that the money invested in the Fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned; • who has prior experience with investing into investment products and whose risk tolerance is moderate.
Maturity	The Fund is open-ended and has no maturity. The Fund may be terminated only with the resolution of the Management Company's management board, or pursuant to the imperative provisions of the Applicable Law subject to the prior approval of the Financial Supervision Authority. More information about liquidation of the Fund is available in fund rules.
Other information	<p>Fund's depository is Swedbank AS (registry code 10060701).</p> <p>Fund rules and prospectus, annual and/or semi-annual reports are available at the Management Company's website https://avaron.com/documents/ or obtainable free of charge on request from the Management Company.</p> <p>Fund NAV is calculated daily and published at: https://avaron.com/our-products/hybridfund/</p>

What are the risks and what could I get in return?

Summary risk indicator

The risk indicator assumes that you keep the product for 2 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator provides an indication of the level of risk of this product

compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7 which is a lower than medium risk class. This means that the Fund has a lower than medium risk of increases and decreases in the unit value. The indicator primarily reflects the increase and decrease in the value of the securities in which the Fund has invested. The category may change over time.

Risks that are not captured by the summary risk indicator are risks from different types of bonds, issuer-specific price risk, credit risk and interest rate risk.

Performance scenarios

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Your investment return from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if AS Avaron Asset Management is unable to pay out?

By law, the Fund's assets must be held separate from the assets of the Fund Management Company. The Fund has a depositary Swedbank AS who is responsible for safekeeping the assets of the Fund. In the event of the bankruptcy of the Fund Management Company, the management of the Fund is taken over by the depositary Swedbank AS. There is no compensation or guarantee scheme in place for investors in the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

Costs over time

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 2 years (recommended holding period)
Total costs	221 EUR	347 EUR
Annual cost impact*	2.2%	1.7% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and 1.1% after costs.

Composition of costs (amounts in euro are based on an investment of 10,000 euro)

One-off costs upon entry or exit		
Entry costs	1%	100 EUR
Exit costs	No exit fee	0 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year. This is an estimate based on actual costs over the last year.	102 EUR
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	19 EUR
Incidental costs taken under specific conditions		
Performance fee	No performance fee	0 EUR

How long should I hold it and can I take my money out early?

Recommended holding period: 2 years

The Fund has no minimum required holding period. However, since the Fund invests in high yield bonds, you should be prepared to hold the Fund for at least 2 years. You have the option to sell your Fund units any time taking into account the prior notice period prescribed for the sale of the Fund's units.
